ABOUT ME

I have over 5 years of programming experience. I've worked on a variety of projects in different fields such as web/mobile development, and low-level programming with ARM64.

SKILLS

I am well versed with the latest web development technologies such as React, Node.js, GraphQL, SQL and NoSQL databases. While always trying to add more to the list.

PROJECTS

SQUIZ

2021

I made a simple online quiz game that uses authentication and track's players' high scores!

SELF CHECKOUT STATION SOFTWARE (SIMULATED)

2021

I worked with a group of 11 to build a GUI that simulates a user interacting with a Self-Checkout Station. I was in charge of designing and building the user interface, as well as writing tests to ensure everything was functional.

EDUCATION

B.SC COMPUTER SCIENCE – IN PROGRESS

University of Calgary

I'm a 3rd year Computer Science student at the University of Calgary.

Throughout my time there I've learnt a lot of the fundamentals that would help me succeed in my professional career and I'm actively applying them on my projects! I've also learnt how to work with others effectively and succeed while being out of my comfort zone.

SUMMARY

I'm a quick learner that's passionate about development and always strive to be a good teammate and build great things with others!
